Description

Chester Bar Stool – Black
A padded faux leather bar stool on an electroplated steel frame. At 37cm wide and 44cm deep, the Chester has a narrower footprint than the New Moon — suited to bar counters and poseur table runs where space is limited and seating density matters. Overall height 92cm, which fits standard bar-height counters and poseur tables. Black finish.
The seat padding is thick faux leather with a wipe-clean surface. The frame is electroplated rather than painted: the finish bonds to the steel surface chemically, which makes it harder and more chip-resistant than powder coat. The slimmer profile lets you place more stools along a given run of counter without crowding guests.
Typical Uses
Corporate events, gala dinners, bar areas, and cocktail receptions. Event hire companies often stock the Chester alongside the New Moon to give clients a choice: the Chester for tight layouts and higher-density seating, the New Moon for wider seated comfort at a lower profile. At 92cm the Chester pairs with any standard poseur table.
Buying in Bulk
A standard poseur table comfortably seats three Chester stools per side. For cocktail-hour layouts, allow one stool for every two standing guests as a starting point. Two stools ship per carton. Volume pricing applies from 10 units.
Pairing Suggestions
The black Chester pairs with black poseur tables for a consistent finish, or with metallic silver tables for a contrast. Combine with black folding chairs or black Tolix-style chairs at standard-height tables to keep the finish uniform across a mixed-height room layout.
Care and Maintenance
Wipe the seat with a damp cloth after use. Avoid abrasive cleaners. The electroplated frame cleans with a dry or slightly damp cloth. Check frame joints periodically, particularly at the seat bracket. Store dry.
