EventPro® Series Eames Style Chair – Black

SKU: EAMCHAIRBLACK
Category: Chairs, EventPro® Series, Free Shipping, Eames Style Chairs
Condition: New

£29.95 ex-VAT

Description

EventPro® Series Eames Style Chair – Black

A moulded polypropylene shell chair on solid beech wood legs with reinforced steel fixings. Black shell. The chair weighs 3kg, supports up to 120kg, and stacks 4 high. Rubber feet protect floor surfaces. Dimensions: 45.5cm wide, 51.5cm deep, 82cm tall.

The combination of a modern moulded shell with natural timber legs creates a mid-century aesthetic that works across corporate events, exhibitions, weddings, graduation dinners, and hospitality venues. The black shell provides maximum versatility: it suits any colour scheme, any venue, and any occasion.

Construction

The polypropylene shell is injection-moulded in a single piece. No seams, no joints in the seating surface, no upholstery to tear or stain. The material resists impact from stacking and transport, shrugs off spilled drinks, and wipes clean with a damp cloth.

The solid beech wood legs connect to the shell via reinforced steel fixings that distribute load across multiple attachment points. Beech provides the hardness and grain consistency needed for furniture legs that endure repeated stacking, moving, and floor contact. The natural timber tone contrasts with the black shell, creating visual interest without complexity.

Stacking

The chairs stack 4 high. The shell geometry nests so stacked chairs occupy minimal additional height per unit. Rubber feet on the legs prevent the bottom chair from sliding on smooth floors under the weight of a full stack.

The Black Shell

Black absorbs into any environment. It suits corporate dinners, gala evenings, award ceremonies, and evening events where the lighting is low and the atmosphere is formal. In event photography, black chairs create strong contrast against lighter tablecloths and centrepieces, making table settings pop in images.

For daytime events, black reads as sophisticated without being sombre. It pairs with white, cream, and metallic table linens for classic contrast.

Part of the EventPro® range. Trusted by the BBC, ITV, HSBC, Cambridge University, and used at the Commonwealth Games.

Buying in Bulk

If you buy 50, 100, or 200 side chairs, start with storage maths. Four high stacks save floor area, but you still need enough gangway space for crews to pull a stack, turn it, and load it without clipping walls. Buyers who run hotel

stock rooms, council venues, or campus halls often group chairs in colour blocks and count each bay by stack so staff can spot shortages in one walk through.

Layout Planning

You can use this chair in dining, meeting, exam, and breakout layouts with less floor demand than an armchair. A 100 person dinner often uses ten round tables with ten chairs on each table, or twelve trestle tables with eight to ten guests per run, depending on plate size and service style. Many planners keep 1.2 metres on main aisles and more around fire exits, stage access, and service stations.

The Black Shell

Buyers pick black when they need one colour that can move from trade fair to awards dinner without a second thought. The shell frames pale linen, white crockery, and brass details with strong contrast. Under warm light it reads as charcoal. Under daylight it keeps a hard, clean edge.

That finish suits corporate dining, hospitality suites, council venues, university halls, and stage side seating where a quiet palette matters. Teams also like black for stock that moves through many sites, because the colour keeps a smart look across mixed room schemes.

Pairing Across the EventPro® Range

Buyers pair this chair with banqueting tables, trestle tables, café tables, poseur tables, and the matching EventPro® Eiffel armchair. That gives you one seat style for dining rows, smaller meeting sets, and front of house waiting areas. If you run mixed rooms, you can keep side chairs on guest tables and place armchairs on top tables, registrar positions, or lounge corners.

Care and Service Life

Staff keep these chairs in good order when they lift them on and off the stack, wipe spills at strike time, and keep the timber legs dry in store. The steel fixings spread force from the shell into the legs, and the beech legs take repeated floor contact without the soft dents you see in cheap mixed timber sets. If you run conference or catering stock at pace, keep felt pads and spare feet in your stores so your team can swap small parts before a mark turns into a full repair.

Shell: moulded polypropylene, black
Legs: solid beech wood with reinforced steel fixings
Dimensions: W45.5 x D51.5 x H82cm
Weight: 3kg
Load capacity: 120kg
Stacking: 4 high
Floor protection: rubber feet
Part of the EventPro® range

This chair ships free by courier. Add it to your basket and the price stays the price. No delivery charge gets added at checkout.
