## EventPro® Series Eames Style Chair – Green

**SKU:** EAMCHAIRGREEN
**Category:** Chairs, EventPro® Series, Free Shipping, Eames Style Chairs
**Condition:** New

**£29.95 ex-VAT**

### Description

EventPro® Series Eames Style Chair – Green

A moulded polypropylene shell chair on solid beech wood legs with reinforced steel fixings. Green shell. The chair weighs 3kg, supports up to 120kg, and stacks 4 high. Rubber feet protect floor surfaces. Dimensions: 45.5cm wide, 51.5cm deep, 82cm tall.

The green shell paired with natural beech legs brings organic warmth to event spaces. Green reads as fresh, natural, and contemporary without the corporate formality of blue or grey. It suits garden parties, sustainability-themed events, creative agency offices, and venues with botanical or natural decor.

Construction

The polypropylene shell is injection-moulded in a single piece. No seams, no joints in the seating surface, no upholstery to tear or stain. The material resists impact from stacking and transport, handles spilled drinks without absorbing, and wipes clean with a damp cloth.

The solid beech wood legs connect to the shell via reinforced steel fixings that distribute load across multiple attachment points. Beech provides the hardness and grain consistency needed for furniture legs that endure thousands of use cycles. The natural timber tone pairs with green to create a cohesive organic aesthetic.

Stacking

The chairs stack 4 high. The shell geometry nests so stacked chairs occupy minimal additional height per unit. Rubber feet prevent sliding on smooth floors.

The Green Shell

Green chairs make a statement about freshness and creativity. They suit spring and summer events, eco-branded corporate days, garden venue receptions, and botanical-themed weddings. In exhibition spaces, green stands out against the grey and black that dominates most trade show furniture, drawing visitors toward your stand.

Mix green with white for a clean spring palette, or use alone for a bold natural statement. Green also works as an accent colour scattered among neutral grey or black chairs.

Part of the EventPro® range. Trusted by the BBC, ITV, HSBC, Cambridge University, and used at the Commonwealth Games.

Buying in Bulk

If you buy 50, 100, or 200 side chairs, start with storage maths. Four high stacks save floor area, but you still need enough gangway space for crews to pull a stack, turn it, and load it without clipping walls. Buyers who run hotel stock rooms, council venues, or campus halls often group chairs in colour blocks and count each bay by stack so

staff can spot shortages in one walk through.

Layout Planning

You can use this chair in dining, meeting, exam, and breakout layouts with less floor demand than an armchair. A 100 person dinner often uses ten round tables with ten chairs on each table, or twelve trestle tables with eight to ten guests per run, depending on plate size and service style. Many planners keep 1.2 metres on main aisles and more around fire exits, stage access, and service stations.

The Green Shell

Buyers choose green when they want a room to feel fresh and settled. Green sits well with timber tops, plant schemes, brick, and pale walls, so it suits campus cafés, council foyers, festival dining tents, and breakout rooms with a softer look. The colour links well with food service and garden led event themes.

Under daylight the shell reads as botanical and clean. Under warm lamps it takes on an olive note. Teams use green chairs to break up large dining blocks, mark café zones, or tie indoor seating to outdoor terraces and planted courtyards.

Pairing Across the EventPro® Range

Buyers pair this chair with banqueting tables, trestle tables, café tables, poseur tables, and the matching EventPro® Eiffel armchair. That gives you one seat style for dining rows, smaller meeting sets, and front of house waiting areas. If you run mixed rooms, you can keep side chairs on guest tables and place armchairs on top tables, registrar positions, or lounge corners.

Care and Service Life

Staff keep these chairs in good order when they lift them on and off the stack, wipe spills at strike time, and keep the timber legs dry in store. The steel fixings spread force from the shell into the legs, and the beech legs take repeated floor contact without the soft dents you see in cheap mixed timber sets. If you run conference or catering stock at pace, keep felt pads and spare feet in your stores so your team can swap small parts before a mark turns into a full repair.

Shell: moulded polypropylene, green
Legs: solid beech wood with reinforced steel fixings
Dimensions: W45.5 x D51.5 x H82cm
Weight: 3kg
Load capacity: 120kg
Stacking: 4 high
Floor protection: rubber feet
Part of the EventPro® range

This chair ships free by courier. Add it to your basket and the price stays the price. No delivery charge gets added at checkout.
