EventPro® Series Eames Style Chair – Orange

SKU: EAMCHAIRORANGE
Category: Chairs, EventPro® Series, Free Shipping, Eames Style Chairs
Condition: New

£29.95 ex-VAT

Description

EventPro® Series Eames Style Chair – Orange

A moulded polypropylene shell chair on solid beech wood legs with reinforced steel fixings. Orange shell. The chair weighs 3kg, supports up to 120kg, and stacks 4 high. Rubber feet protect floor surfaces. Dimensions: 45.5cm wide, 51.5cm deep, 82cm tall.

Orange is the boldest colour in the Eames range. It demands attention, creates energy in a room, and photographs with immediate impact. The warm orange shell paired with natural beech legs produces a retro mid-century look that suits creative agencies, tech startups, food festivals, and events where personality matters more than formality.

Construction

The polypropylene shell is injection-moulded in a single piece. No seams, no joints in the seating surface, no upholstery to tear or stain. The material resists impact from stacking and transport, handles spilled drinks without absorbing, and wipes clean with a damp cloth.

The solid beech wood legs connect to the shell via reinforced steel fixings that distribute load across multiple attachment points. Beech provides the hardness and grain consistency needed for furniture legs that endure thousands of use cycles. The natural timber tone grounds the bold orange, preventing the colour from overwhelming the space.

Stacking

The chairs stack 4 high. The shell geometry nests so stacked chairs occupy minimal additional height per unit. Rubber feet prevent sliding on smooth floors.

The Orange Shell

Orange suits autumnal themes, Halloween events, street food festivals, brand activations for companies with warm-toned identities, and VIP hospitality tents where you want furniture to contribute to the atmosphere. Creative agencies and co-working spaces use orange chairs year-round as energising accents in breakout areas.

Mix orange with grey or black for a controlled pop of colour, or deploy in full for a high-energy environment. Orange also works as wayfinding: use it to mark VIP areas, speaker seating, or specific zones within a larger event layout.

Part of the EventPro® range. Trusted by the BBC, ITV, HSBC, Cambridge University, and used at the Commonwealth Games.

Buying in Bulk

If you buy 50, 100, or 200 side chairs, start with storage maths. Four high stacks save floor area, but you still need enough gangway space for crews to pull a stack, turn it, and load it without clipping walls. Buyers who run hotel

stock rooms, council venues, or campus halls often group chairs in colour blocks and count each bay by stack so staff can spot shortages in one walk through.

Layout Planning

You can use this chair in dining, meeting, exam, and breakout layouts with less floor demand than an armchair. A 100 person dinner often uses ten round tables with ten chairs on each table, or twelve trestle tables with eight to ten guests per run, depending on plate size and service style. Many planners keep 1.2 metres on main aisles and more around fire exits, stage access, and service stations.

The Orange Shell

Buyers turn to orange when they want the chair to lift the room with warmth and movement. Orange suits student spaces, festival cafés, creative studios, and branded pop ups where the seating forms part of the visual plan. The shell works with black frames, plywood tops, and white walls in a bold but clean way.

Under daylight the colour looks bright and citrus led. Under warm lamps it shifts toward copper. Teams use orange chairs to mark social zones, café seating, and informal meeting areas where guests gather in short bursts through the day.

Pairing Across the EventPro® Range

Buyers pair this chair with banqueting tables, trestle tables, café tables, poseur tables, and the matching EventPro® Eiffel armchair. That gives you one seat style for dining rows, smaller meeting sets, and front of house waiting areas. If you run mixed rooms, you can keep side chairs on guest tables and place armchairs on top tables, registrar positions, or lounge corners.

Care and Service Life

Staff keep these chairs in good order when they lift them on and off the stack, wipe spills at strike time, and keep the timber legs dry in store. The steel fixings spread force from the shell into the legs, and the beech legs take repeated floor contact without the soft dents you see in cheap mixed timber sets. If you run conference or catering stock at pace, keep felt pads and spare feet in your stores so your team can swap small parts before a mark turns into a full repair.

Shell: moulded polypropylene, orange
Legs: solid beech wood with reinforced steel fixings
Dimensions: W45.5 x D51.5 x H82cm
Weight: 3kg
Load capacity: 120kg
Stacking: 4 high
Floor protection: rubber feet
Part of the EventPro® range

This chair ships free by courier. Add it to your basket and the price stays the price. No delivery charge gets added at checkout.
