New Moon Bar Stool – Black

SKU: BS-NM-BLK
Category: Chairs, Bar Stools, Free Shipping
Condition: New

£49.95 ex-VAT

Description

New Moon Bar Stool – Black

A padded faux leather bar stool with an electroplated steel frame. The New Moon seat is 47cm wide and 50cm deep — a broader footprint than most commercial bar stools — making it a more comfortable choice for long evenings where guests stay seated through drinks service. Overall height 78cm. Black finish.

The frame is electroplated rather than painted. The finish is bonded to the metal surface through an electrochemical process, which makes it harder and more resistant to chipping than a painted or powder-coated alternative. The seat padding is thick faux leather, firm enough for heavy commercial use and wipe-clean for rapid turnover between events.

Typical Uses

Bar and cocktail venues use the New Moon at bar counters and poseur tables for cocktail receptions, product launches, and corporate networking. Wedding bars, hotel foyers, and conference after-parties all suit this stool. Event hire companies often stock the New Moon alongside the Chester to give clients a choice of profile: the New Moon for depth and comfort, the Chester for narrower layouts and tighter spacing.

Buying in Bulk

Venues and hire companies typically buy bar stools in quantities of 20, 50, or 100. Two ship per carton, so a pallet of 20 cartons gives you 40 stools. For cocktail arrivals, networking sessions, and gala receptions, a rough guide is one stool for every two standing guests: guests rotate through seated periods without a queue forming at the bar.

The black New Moon works alongside black poseur tables, black folding chairs, and black Tolix-style chairs without introducing a second finish into the space. Buyers running mixed venue floors value that consistency — it keeps room styling and photography clean.

Pairing Suggestions

The New Moon pairs with the Poseur Table – Metallic Silver for a contemporary bar setup, or with any black poseur table for a uniform finish. For venues that need a wider range of seating heights, combine the New Moon at poseur height with Eames Eiffel chairs at standard table height. Wedding and event stylists often use the black New Moon with white linen and dark florals for a formal cocktail bar look.

If you need more stools in a tighter run, the Chester Bar Stool at 37cm wide fits more chairs along a counter without reducing comfort. For a taller profile to suit higher bar counters, the Producer sits at 92cm overall.

Care and Maintenance

Wipe the faux leather seat with a damp cloth after use. Avoid abrasive cleaners, which will mark the surface finish. The electroplated frame cleans with a dry or slightly damp cloth. Check the frame joints periodically for loosening, particularly where the seat bracket meets the uprights. Store dry — the frame resists moisture better than a painted alternative, but prolonged damp will eventually affect any steel finish.

Seat dimensions: 47cm wide × 50cm deep
Overall height: 78cm
Frame: electroplated steel
Seat: padded faux leather
Finish: black
Available in: black, white
Use: indoor and covered outdoor
See the Bar Stool Buying Guide for height matching and range comparison.
